SUMMARY

I am pursuing a BICT (Hons) degree with a strong foundation in coding languages, troubleshooting, and teamwork. My academic journey has equipped me with both technical and problem-solving skills, which I apply to real-world challenges. I am passionate about building secure systems, improving data-driven decision making, and creating innovative software solutions that make a meaningful impact in the ICT field.

Interests: Web development, machine learning, cybersecurity, data science, networking, and competitive programming.

Career objective: To secure an internship or entry-level role in software development or cybersecurity, where I can apply my technical skills and teamwork abilities to real-world projects. Over the next few years, I aim to build secure, innovative systems and contribute to data-driven solutions that create meaningful impact.
